## EDUCATION

<b>National College of engineering</b> <i>Computer Engineering</i>	Lalitpur Jan 2024 – Present
<b>Kalika Manavgyan Secondary School</b> <i>High School(+2) in Technical Stream</i>	Butwal, Rupandehi 2021 – 2023

## EXPERIENCE

<b>Volunteer - (Content Writer)</b> <i>GNOME Asia Summit 2023</i>	Oct 2023 – Dec 2023 <i>Kathmandu</i>
<ul style="list-style-type: none"><li>Wrote promotional content and curated the official event blog as part of the event team</li><li>Maintained communication channels on Discord.</li><li>Managed logistics onsite during the event</li><li>Offered translation assistance when needed</li><li>Provided support wherever necessary during the event</li></ul>	
<b>ICT Club of KMGSS</b> <i>Media Head</i>	2022 – 2023 <i>Butwal, Rupandehi</i>
<ul style="list-style-type: none"><li>Managed website and social media platforms.</li><li>Organized events including Robotics Soccer, ICT Quiz, and the Hackathon (Hackthisjune)</li></ul>	
<b>Full Stack Developer</b> <i>PNIT</i>	2022 Mar – 2022 Sep <i>Butwal, Rupandehi</i>
<ul style="list-style-type: none"><li>Developed a REST API of the commerce site using Nodejs</li><li>Developed a full-stack e-commerce web application using React, MongoDB, Expressjs and Node js</li><li>Explored and use Github for collaboration with fellow developers</li></ul>	

## PROJECTS

<b>Apexa</b>   <i>MERN, Mindsdb, Linode</i>	<ul style="list-style-type: none"><li>Built open source web application where you can keep track of your youtube videos and hashnode blogpost to understand your audience's thoughts on your content</li><li>Crafted for Mindsdb x Hashnode Hackathon</li><li>Won the prize of \$1000 as Runner up</li></ul>
<b>Devhub</b>   <i>React js, Appwrite, Material UI</i>	<ul style="list-style-type: none"><li>Developed a dynamic web application designed to connect and showcase developers' work.</li><li>Created for the Appwrite x Hashnode Hackathon</li></ul>
<b>Devport</b>   <i>React js, Mongo db, Node js, Custom styling</i>	<ul style="list-style-type: none"><li>Built MIT licensed open source project which helps specially developer to make stunning dev portfolio with top notch customization and good looking UI</li><li>Created for the Appwrite x Hashnode Hackathon</li></ul>
<b>Mero room app</b>   <i>React native, Firebase</i>	<ul style="list-style-type: none"><li>Built open source app which makes the connection between room owner and room seeker</li><li>Main motive of the app is to solve the problem of layman people who suffers while searching for the room</li></ul>
<b>Ideao</b>   <i>React js, Redis, Custom Styling</i>	<ul style="list-style-type: none"><li>Built web platform of exploring, sharing the creativeness in the form of idea.</li><li>Crafted for the Dev.to x Redis hackathon</li><li>My first ever hackathon project which luckily won the runner up prize of \$400</li></ul>

## ACHIEVEMENT

---

### National First place: Deltathon by Purwanchal College of Engineering |

- Participated as a team in my second offline hackathon
- Developed a web application aimed at centralizing medical reports for all hospitals
- Awarded first place, receiving a prize of Rs. 30,000

### Runner up: Mindsdb x Hashnode hackathon |

- Created an application called Apexa, focusing on utilizing AI for audience engagement analysis, generating summaries, and images
- Achieved the runner-up position, winning a prize of \$1000

### Runner up: Redis x Dev.to hackathon |

- Participated as first online hackathon
- Developed a platform for developers to discover hackathon ideas
- Awarded the runner-up prize of \$400

### Runner up at Not just dev hackathon |

- Participated in a mobile app hackathon, showcasing the app "Mero room"
- Secured the runner-up position and received a prize of \$250

### Runner up at Airbyte x Hashnode Hackathon |

- Contributed a quickstart guide for Airbyte during the hackathon
- Awarded the runner-up prize of \$500

### Blogging Achievements |

- First place: write-to-win Blogging competition by Showwcase
- Runner up: Devretro Blogging competition by Hashnode
- Silver winner: Dev Elevate by Showwcase
- Noteworthy mention: DebuggingFeb by Hashnode

## TECHNICAL SKILLS

---

**Languages:** JavaScript, HTML/CSS, C/C++

**Frameworks:** React, Node.js, Next.js, Material-UI, Chakra-UI

**Database:** MySQL, MongoDB

**Developer Tools:** Git, Docker, VS Code

**Backend Services:** Appwrite, Firebase
